

Milford Rd, Milford, Auckland

Residential Projects

Client: Private
Architect: N/A
Builder: Gary
Bonham
Builders

Project Description: The major interior rebuild of an existing home, requiring the replacement and upgrading of the ceilings, walls, flooring, and three bathrooms. Works also included extensive hard and soft landscaping redevelopment.

Our Role: Project Partners were engaged as the client representative on this project to manage all aspects of the process. This included coordination with Council, as required, progressing design development with the interior designer, and tendering the works with the nominated contractor and arranging final access for the client.
